- ❖ WVInfoDepot.org hosts a collection of online databases for use by all West Virginia residents. The databases are selected to provide current, reliable information on a variety of topics of interest to information explorers of all ages.
- ❖ WVInfoDepot.org is a program of the West Virginia Library Commission provided with funds from the State Legislature and the Library Services and Technology Act, administered by the Institute of Museum and Library Services.

How to find WVInfoDepot.org?

You can...

- ❖ Type wvinfo depot.org into your browser
- ❖ Go to the WV Library Commission home page: www.librarycommission.wv.gov, scroll down to Helpful Resources and click on WVInfoDepot.org
- ❖ And there you will be...

How to Access WVInfoDepot databases?

- ❖ Access to the WVInfoDepot databases requires a username and password. The user name: **west** and password: **virginia** provides current West Virginia residents access to all the WVInfoDepot databases except Learning Express Library and Job & Career Accelerator.
- ❖ These two databases are authenticated through the WVInfoDepot web page but each user sets up an individual account.
- ❖ Due to license agreements with the vendors, the username and password cannot be placed on a public website. They can, however be placed in electronic and print publications distributed only to teachers, students, and parents. These bookmarks include the username and password. Contact me if you are interested in the bookmarks, support material, or training. At the end of August, these bookmarks were part of the materials mailed to all public libraries.
